Street Light's

My name is Darlene Aude I Live at 1520 Carlisle Ave. Racine Wi. 53404. I would like to see if I could get Brighter Light's in the ally behind 1516 and 1526 Carlisle Ave. I have a security camera in my garage facing South it started out being used just for my fence kid's were braking the fence all the time when coming home from school. Someone was and still is throwing stones at my fence and garage and house will it turns out to be helping my neighbors. Helped one when some kid's bet him up they got the kid's next door when kid's broke into there car 4 times helped another neighbor when 3 kid's stole there puppy and broke there fence down and are neighbor Jose about 3 wk's ago Inv. Kelly came to my house with pictures and wanted me to see if I could pick out the man that went into are neighbor's back yard with a shopping cart and came out with Jose's grill and some other thing's The tapes are doing good if it is daylight or they get close to are fence so are light's that we put up to help light it up . We need bigger light's so this is why I am writing you . The police said it is to hard to see if they are not right by the fence at night. Can you Please help us Thank You Darlene Aude
