

August 1st, 2012

Dear Mayor and common council,

I am writing as to have the property located at Cleveland and Republic ave. I have just recently purchased 3543 Republic Ave and would like to acquire this parcel. I have made several phone calls to building and planning, engineering, we energies and DPW water and sewer. Of what I have found is that wastewater is the only utility that has right of way to the parcel. If I am able to acquire this parcel I was told that there would have to be a 20ft easement from the sewer line that runs under the parcel. Please advise me as to what steps I would need to take to have this happen. Thank you.

Sincerely,

Ryan La Fave sr
