BENEFIT FOR LINDA HOLT-SOLTES

It was discovered that Linda had spinal stenosis and scoliosis when she underwent surgery on her back 3 years ago. On Good Friday this year she was walking up to her apt (minding her own business like she always did) when she tripped and hit her head on the hand rail of the steps to her building. The fall resulted in her top 3 vertebrae to shatter due to the fact that her spinal cord had no room to move due to her condition. Linda is now paralyzed from the neck down.

Linda worked as a bartender for years at Hoffys, Ike's, Rojo's, and College Inn. She owned Linda's Bar on High St. and Main from 1982-1986. We are hosting the benefit to help with the massive medical costs that she has incurred and is about to incur as she makes the transition into a nursing home/in-home care. She will need 24 hour health care.
