**Subject:** Communication for PWSC

JJ,

I would like to put in the following communication to the ~~Public Works and Services Committee~~: TRAFFIC

To consider the installation of a stop sign at the intersection of Graceland Blvd. and Illinois St.

I have received numerous complaints about cars traveling at very high speeds into and past the entrance to Lockwood Park. I will also contact the Police Department about speed enforcement in the area, but would like to ask the committee to also look into a longer term solution to this problem.

Thank you.
