Subject: Stop signs on Erie between Melvin and Three Mile

Nancy:

I have heard many complaints from residents over the past few months about speeding on Erie. I was at a small gathering on Erie for the Night Out last night, and while most vehicles appeared to be complying with the speed limit, some were definitely over and a few were "extremes".

I have spoken to RPD and they said that their speed monitoring equipment consistently demonstrates lower averages than recognized by the State as being too high. There are no stop signs between Melvin and Three Mile and I would like to know if we can evaluate the possibility of putting in a stop sign (or two) somewhere in that stretch.

Thanks -

Eddie Diehl
