**Corridor or Special Design District?:** Uptown Corridor

**Historic?:** N/A. The Junction Branch Library is not listed on the National Register of Historic Places (NRHP); however, the 1979 Architectural and Historical Survey identified this property as eligible for nomination to the NRHP. The survey notes:

“After local residents raised sufficient funds to purchase the site, Andrew Carnegie approved the plans and contributed \$10,000 to the library. The Uptown Branch Library is significant because it is designed in an early modern style of architecture, and because it is an example of the Carnegie funded Branch library. Its style was termed "Sullivan-esque" by its foremost proponents Claude and Starck, a Madison architectural firm that designed more than 30 libraries throughout the Midwest in this simplified early modern idiom that was usually decorated with a terra cotta frieze of Sullivan-esque ornament. The local architects who designed it, Guilbert and Funston, built in the early modern style whenever they could find client acceptance of this new kind of architecture.”

**Additional Planning and Zoning Comments:**

**REQUIRED FINDINGS OF FACT:**

CONDITIONAL USE FINDINGS (Sec. 114-154. – Standards.)

No Conditional Use shall be recommended by the Plan Commission unless it is found that:

- 1) The establishment, maintenance, or operation of the conditional use will not be detrimental to, or endanger, the public health, safety, morals, comfort, or general welfare.**

Staff Comments: The establishment of a group day care is not expected to be a detriment to the public safety, health or general welfare of the area or community in general. This type of facility, with the

recommended conditions, could be an asset to the area and those living in the adjacent neighborhood(s), but community as a whole. This location is easily accessible to the surrounding area and is expected to be an enhancement to the business district, not a detriment. Given the close proximity to residential development to the southwest, the operations are less intensive than many commercial uses in this zone district; this use is expected to serve as a buffer.

**2) The conditional use will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted, nor substantially diminish and impair property values within the neighborhood.**

Staff Comments: This conditional use is not anticipated to be injurious to other properties in the general area, assuming the recommended conditions are adopted with this request. The recommended conditions ensure this property will not impair property values or the enjoyment of adjacent properties. There is not expected to be any adverse impacts as a result of reusing this building in the manner proposed by the applicant. The use is not expected to generate loud noise and is anticipated to fit into the neighborhood, but will serve as a transition from the residential uses to the southwest into the business district.

**3) The establishment of the conditional use will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district.**

Staff Comments: The proposed conditions with this request help to ensure that development in the area remains consistent and orderly, while accommodating for new land uses. The recommended conditions also ensure that the property is used and has the appearance to that of an office type use (which is permitted in this zone).

**4) Adequate utilities, access roads, drainage and/or necessary facilities have been or are being provided.**

Staff Comments: The site plan submitted by the applicant does not propose any changes to the access, utilities or drainage for the site. The reuse of this site and existing building is not expected to impact the provision of utilities for the property or general area.

**5) Adequate measures have been or will be taken to provide ingress and egress so designated as to minimize traffic congestion in the public streets.**

Staff Comments: The applicant is not contemplating any changes to the access to this site. The ingress and egress from the site is expected to be appropriate to handle the demand. With the traffic flowing in one direction it should be adequate to handle the traffic that will be created at times when children will be picked up or dropped off. It should be noted that all drop off and pickup needs to occur on the lot; this nature of the busier streets is that on-street parking and drop off will not be an option.

**6) The proposed conditional use is not contrary to the objectives of the current land use plan for the city.**

Staff Comments: The land use plan for the City identifies this property as Commercial. This proposed usage is consistent with the objectives of the comprehensive plan and is of a lesser intensity than other uses allowed in this zone district. If the property is utilized as proposed and maintains its hours of operation, it will be generally as active as a lower intensity commercial area. Additionally, this property is adjacent to residential properties and the proposed use helps to provide a buffer.

**7) The conditional use shall, in all other respects, conform to the applicable regulations of the district in which it is located, except as such regulations may, in each instance, be modified pursuant to the recommendations of the plan commission.**

Staff Comments: With the recommended conditions, it is expected that this development will operate in accordance with the applicable regulations for this zone district. No exceptions are needed with the request and the proposed development should serve as a buffer to the adjacent residential areas expanding outward and surrounding this business corridor.

## **POSSIBLE ACTIONS FOR THE PLANNING COMMISSION**

1. Approve the request as submitted; or
2. Approve the request with conditions deemed necessary to mitigate any adverse impacts that could arise from the project; or
3. Deny the request; or
4. Defer the request to obtain more specific information about the request.

**STAFF RECOMMENDATION:** BASED ON THE FINDINGS OF FACT IN THIS REPORT, THAT THE REQUEST FROM, TENERIA SUBLETT AND DAQUASIA EAST SEEKING A CONDITIONAL USE PERMIT TO ALLOW A GROUP DAYCARE AT 1407 S MEMORIAL DRIVE BE APPROVED, SUBJECT TO THE FOLLOWING CONDITIONS:

- a) That the plans presented to the Plan Commission on June 1, 2022 be approved subject to the conditions contained herein.
