**Subject:** FW: 3600 block of Monarch Drive

We'll need a preliminary resolution for PW&SC as an alderman request. We can talk about this next week.

**Cc:** Rooney, John; Eschmann, Randall; Herzog, Jason  
**Subject:** Re: 3600 block of Monarch Drive

Thank you for doing what you can. Please put this up for public hearing for bituminous as soon as practical.

Thanks,

---  
Gregory T. Holding, J.D.  
Alderman of the 11th District  
Chairman - Committee on Public Safety and Licensing  
City of Racine, WI

Alderman Holding ,

We are limited on what we can do to help the situation on Monarch Dr. Grading shoulders and alley's were dropped back when Rick Jones was here as part of cut backs in service when we lost personal. We will send someone over there to fill the deep potholes with stone but that is a very temporary fix to the problem. It's my opinion after talking to John Rooney that the road should be reconstructed with asphalt shoulders like Maryland Ave. and other Streets in the area. Any question please feel free to contact me . Thanks Bill

I take it we are not prepared to expend any resources patching the shoulder here? If so, then I would like this on the list for public hearings for next Spring.

Thank you,

Alderman Holding:

Staff can't bring this back for public hearing for a few more years. Is this something you want to discuss with your constituency this summer and have it brought up next spring as an alderman or citizen request?

Randy – we feel your pain with this block. The block itself is an assessable street and is dictated by property owner's votes or by alderman decisions. This block was brought forth for public hearing in 2013, but was turned down. Typically these streets cannot repeat hearings for 5 years. Not sure if that helps, but it will remain on our assessable list until rebuilt.

Just to let you know I have been called out on Monarch Drive for what the caller describes as a treacherous road condition. The complaint came from 3615 Monarch Drive, but most of the road is breaking up at the sides. I have been out here earlier this year to pick up the broken chunks of asphalt, and will send someone out again to pick up the

pieces. If this is something you guys look at for road replacement could you take a look at it, or pass this on to someone could. Thanks, Randy
