Members of the Traffic and Parking Commission,

I am writing on behalf of the neighbors regarding 2 traffic situations:

The corner of Jefferson and West High is currently a 2-way stop. It is a very busy corner both for children and for traffic in and out of Colonial Park. The neighborhood is united in asking that for the corner to be converted to a 4-way stop sign.

Traffic on Osborne on the east side of the hospital is consistently running well above the speed limit. There is also a large volume of traffic, often unfamiliar with the corner, going in and out of the hospital. Some form of traffic control in this area may be in order.

In both these cases, I have gone out to observe the situation and can attest that the neighborhood concerns seem valid. I would appreciate your looking in to these situations.

Respectfully,

Terry McCarthy
9th District Alderman
