FROM: John Rooney
Assistant Commissioner/Engineering

RE: Proposal for Casual User Interface Migration to .NET (Phase I Specifications)

We have received a proposal from AECOM Technical Services for the Casual User Interface Migration to .NET (Phase I Specifications). The proposal is in the not-to-exceed amount of \$8,000. The purpose of this project is to provide geographic information systems (GIS) services assisting the City, specifically the Municipal Information Systems group, in achieving its goal of composing specifications for the migration of the City's GIS website, "Casual User Interface. Funding is available in Account No. 101.130.5830, Computer Software GIS Layers.

If the Committee agrees, the appropriate action would be to approve the proposal and authorize the Mayor and City Clerk to enter into the agreement.
