Mayor John Dickert and the Common Council
730 Washington Avenue
Racine, WI 53403

Dear Mayor Dickert and Common Council Members:

Racine Habitat for Humanity is requesting that the Department of Public Works investigate the extension of a storm drain one block east on 10th Street from Lockwood to accommodate the discharge of sump pumps, roof gutters, and ground run-off for the four houses Habitat for Humanity will be completing by the end of 2010.

The city had a 12" drain tile connected to the sewer line on 10th Street. We were told it had to be vacated, and now we have significant water problems in the basements even with sump pumps.

This request comes as a result of my conversation with Mr. Richard Jones, Commissioner of Public Works.

Sincerely,

Jan Roland

Jan Roland, Board President
Racine Habitat for Humanity
