Item #10-4830

March 5, 2010

TO: Alderman Holding, Chairman
Public Works & Services Committee

FROM: John Rooney
Assistant Commissioner/Engineering

RE: State Project ID: 2440-07-00/70, 7th Street (STH 20), Marquette Street to Main Street

The Wisconsin Dept. of Transportation has completed a pavement design report for the 7th Street project. The recommendation from WisDOT is for hot-mixed asphalt on the STH 20 project from 9th Street to Main Street, including the roundabout. The City of Racine has requested 9" of Portland cement concrete pavement for the project to be consistent with other pavements done on connecting highway projects in the downtown area. The difference calculated is \$119,191.59 in additional costs for Portland cement concrete pavement.

If the Committee agrees the appropriate action would be to approve the 9" Portland cement concrete pavement for the project and send a copy of the resolution showing that support to WisDOT for their use. Upon receipt of the resolution, WisDOT will follow up with a revised project agreement to capture the additional cost. It is further recommended that the Committee approve the revised project agreement from WisDOT. Funding for this additional cost will be provided in the 2011 Capital Improvement Project budget.
