Interim Commissioner of Public Works/City Engineer

RE: Wisconsin DNR Grant for Water Quality Planning (Non-Point Source Pollutant Modeling), Grant Control No. 2011-014

We are submitting a request to apply for a Wisconsin DNR Grant for Water Quality Planning (Non-Point Source Pollutant Modeling). This modeling would complete a city-wide analysis to identify opportunities where structural best management practices can be implemented to assist the City in reduction of Total Suspended Solids (TSS) per the requirements of our WPDES.

The total amount of this project would be \$45,000, with 70% of the grant funding available in the amount of \$31,500.00 and a 30% local share of \$13,500. Funding for the local share would be made available in the 2012 Storm Water Utility Budget.
