

GRANT / CONTRACT COMMUNICATION REPORT: September 2025

Legislative File # and Agenda Dates	Grant / Contract Title	Supporting / Funding Source	Description	Amount	Match	Grant / Contract Duration
#####-25 CC: TBD F&P: TBD CC: TBD3:16	WI Department of Health Services – Division of Public Health (WI DHS-DPH) Mike Johnson & Early Intervention Services	State Funding	Funds will support the activities of a Public Health Educator/PrEP (Pre-Exposure Prophylaxis) Navigator, who works directly with clients to enroll them in PrEP services. PrEP is a class of medications that, when taken as prescribed, significantly reduces the risk of acquiring HIV through sexual contact or injection drug use. The funding will also help cover the cost of required laboratory testing for uninsured individuals accessing PrEP services. Promoting PrEP to priority populations, providing PrEP navigation, and ensuring access to necessary lab work are key strategies to ending the HIV epidemic in both Wisconsin and the United States.	\$95,282.00	No City Match	07/01/2025 – 06/30/2026
#####-25 CC: TBD F&P: TBD CC: TBD	WI Department of Health Services – Division of Public Health (WI DHS-DPH) Communicable Disease Control & Prevention (Consolidated)	State Funding	Part of the long-term WI DHS Consolidated Grant. Continuation of programs for communicable disease control and prevention through surveillance and investigation at the local level.	\$5,850.00	No City Match	07/01/2025 – 06/30/2026

#####-25 CC: TBD F&P: TBD CC: TBD	WI Department of Health Services – Division of Public Health (WI DHS-DPH) Immunization (Consolidated)	State Funding	The objective of this grant is to ensure children in the City of Racine who turn 24 months old during the contract year receive all the recommended vaccinations by their second birthday. The required vaccinations include DTaP, Polio, MMR, Hib, Hepatitis B, Varicella, and Pneumococcal Conjugate (PCV). To achieve the vaccination goal, staff will contact parents or guardians of unvaccinated children, tracking immunization data, coordinating and sharing information with physicians. The data will be entered into the Wisconsin Immunization Register (WIR).	\$34,040.00	No City Match	07/01/2025 – 12/31/2025

#####-25 CC: TBD F&P: TBD CC: TBD	WI Department of Health Services – Division of Public Health (WI DHS-DPH) Integrated HIV Prevention	State Funding	<p>Integrated HIV Prevention continuation funding is intended to support activities that will make progress toward ending the HIV epidemic through several categories of activities, including diagnosing, treating, preventing, and responding to HIV infections. Locally, funds will be used to increase the availability of condoms and other safer sex supplies to prevent the spread of HIV. Funds will also support advertising and outreach campaigns to increase knowledge of HIV testing options and other HIV prevention methods such as pre-exposure prophylaxis (PrEP) and post-exposure prophylaxis (PEP).</p> <p>The grant aims to support community engagement and HIV planning efforts by conducting strategic community engagement and increasing collaborations and engagement with local partners, people living with HIV, and communities most impacted by HIV to provide education and dispel misinformation about HIV. All activities will be designed and implemented in accordance with the goals and priority populations outlined in the 2022 Wisconsin HIV Surveillance Annual Report.</p>	\$25,000.00	No City Match	06/01/2025 – 05/31/2026

#####-25 CC: TBD F&P: TBD CC: TBD	WI Department of Health Services – Division of Public Health (WI DHS-DPH) TB Dispensary Program	State Funding	The primary purpose of the Wisconsin TB Dispensary program is to ensure that all persons in Wisconsin with suspected or confirmed tuberculosis infection or disease can receive appropriate evaluation, treatment, and monitoring, regardless of insurance availability. Wisconsin's TB Dispensary uses state tax revenue funds to reimburse local and Tribal health departments (LTHDs) for medical management of patients with active TB, patients being evaluated for TB, patients with latent TB infection (LTBI), and patients exposed to TB. The word "dispensary," as it is used here, is a legislative term referring to the mechanism by which LTHDs are reimbursed for the management of TB patients. The traditional use of the word (i.e., the pharmaceutical dispensing of medicines or medical supplies) does not apply.	N/A	Wisconsin TB Dispensary contract is a standard purchase order interagency agreement between the City of Racine Public Health Department and the State of Wisconsin which provides reimbursement for clinical services and medications necessary for the diagnosis, treatment, and prevention of TB.	07/01/2025 – 06/30/2026
#####-25 CC: TBD F&P: TBD CC: TBD	WI Department of Health Services – Division of Public Health (WI DHS-DPH) BIOT Focus A Planning (Consolidated)	State Funding	Part of the long-term WI DHS Consolidated Grant. Complete contract objectives and deliverables for operational readiness involving natural and man-made emergencies/disasters.	\$45,514.00	No City Match	07/01/2025 – 06/30/2026

#####-25 CC: TBD F&P: TBD CC: TBD	WI Department of Health Services – Division of Public Health (WI DHS-DPH) BIOT Preparedness Cities Readiness Initiative (CRI) (Consolidated)	State Funding	Part of the long-term WI DHS Consolidated Grant. Complete contract objectives and deliverables for operational readiness involving natural and man-made emergencies/disasters, with a focus support in the event of a large-scale public health event requiring a medical countermeasure response.	\$27,809.00	No City Match	07/01/2025 – 06/30/2026
#####-25 CC: TBD F&P: TBD CC: TBD	WI Department of Health Services – Division of Public Health (WI DHS-DPH) Infant Mortality - Racine (Consolidated)	State Funding	Part of the long-term WI DHS Consolidated Grant. The YouFirst program focuses on serving the diverse needs of low-income and Medicaid eligible individuals who are not pregnant and not seeking pregnancy, those in their preconception period, and those who are pregnant. Through an interdisciplinary team consisting of a public health reproductive nurse and a public health educator, individuals will be empowered to make informed and healthy lifestyle choices, improving lifelong wellness throughout the community. The program seeks to reduce the incidence of unwanted pregnancies, the rate of low-birth-weight infants, and increase overall maternal wellness, thus reducing the infant mortality rate as well as maternal morbidity caused by chronic health conditions.	\$222,700.00	No City Match	07/01/2025 – 06/30/2026
