Re: Acceptance of Wisconsin DNR Grant for Lincoln Park Streambank Stabilization, Grant
Control No. 2011-013

We are requesting authorization to accept a Wisconsin DNR Grant for Lincoln Park Streambank Stabilization. This grant is for engineering and construction costs to stabilize approximately 750 feet of the streambank on the Root River in Lincoln Park, approximately 1,000 feet upstream of Spring Street. This area has been identified with a high erosion rating in the Root River Streambank Assessment Report.

The total amount of the study to update the project will be \$200,000, with 50% of the grant funding available in the amount of \$100,000, and a 50% local share of \$100,000. Funding for the local share is available in Account No. 104.992.6817 – State Grant-Lincoln Park.
