*These properties were listed on the National Register of Historic Places in 2016 as part of a previous redevelopment (renovation and restoration) plan. As part of the current redevelopment plan, demolition of all buildings is proposed to make way for the construction of two multi-story apartment buildings totaling 141 living units. On September 9, 2019, Commission members reviewed the mandated mitigation plan and filed recommendations with the Wisconsin Historical Society (WHS). As directed by the executed mitigation plan, City staff and the developer will be presenting salvage and interpretive installation plans for consideration by Commission members. Staff recommends that the Commission considers a finding of appropriateness, and transmits such a finding to the WHS.*
