Re: Replacement Transit Security Cameras for Paratransit and Fixed-Route Buses

The original cameras that are installed in 22 fixed route buses and 6 paratransit vehicles are no longer reliable and cannot be repaired. These cameras are a critical part of RYDE Racine's commitment to safety on our vehicles and provide needed incident data to law enforcement and the system's insurer.

If the Commission agrees, please allow the purchase of cameras from AngelTrax for 22 fixed-routes buses and 6 paratransit buses, utilizing state consortium pricing, at the price of \$114,428.00.

Total cost approximately \$114,428.00. Grant amount being \$91,542.00, local match of \$22,886.00 available in the capital plan under 60282 49240.

Note: A *Purchasing Consortium* is a collaborative arrangement where organizations combine their requirements for goods, works, and services to gain better pricing. It is considered "piggybacking" from state contracts, which document and process procurement procedures for organizations and allows for purchase directly through shared contracts.

Sincerely,
Trevor Jung
Transit & Mobility Director
