Numerous areas of the City have design guidelines which are specific to projects and must be adhered to. The design guidelines can be found at the following link under the design review district heading on the page: https://www.buildupracine.org/business-tools/planning/

Acknowledgement and authorization signatures

Design Review is not like a building permit; applying does not mean it will be approved.

The approval may contain conditions related to the improvement of the site which must be met prior to the occupancy of the building, approval of the final work, or otherwise specified. Improvements may include but are not limited to landscaping, fencing, lighting, pavement surfacing and sealing, dumpster enclosures, and exterior building improvements.

The signature(s) hereby certify that the statements made by myself and constituting part of this application are true and correct. I am fully aware that any misrepresentation of any information on this application may be grounds for denial of this application.
