December 13, 2017
Ron Christianson

Estimate #4770
Project: 328 Main Street
Racine, WI 53403

Remove the existing glass and storefront framing up to the interior entry door area, furnish and install Trulite Series CT451 2" x 4 1/2" dark bronze center glazed thermally broken architectural aluminum framing with thermally broken subsill and matching brake metal. Also included is one 3' x 7' dark bronze Trulite medium stile butt hung aluminum entry system with ADA 10" bottom rail, Adams-Rite 1850 deadbolt lock, keyed cylinder, thumb turn, 1" diameter ADA push/pull hardware, LCN 4040XP surface mount ADA closer with drop plate, 2" x 4 1/2" transom frame, factory weathering, threshold and brush sweep.

Glass is to be 1" clear Low E tempered insulated glass. Sealant to be Tremco Vulkem 116 dark bronze matching sealant.

Included is removal of debris from the old storefront and caulking of the new storefront. Matching brake metal trim is included where necessary. Wood fill is included at the storefront base to offer a flush surface to mount the new storefront.

The new storefront is to match the pattern of the old storefront with 60" wide flanker front openings and angled openings going in to the space utilizing the same kneewall that is presently there. The only variance is that the door leaf is to be 36" wide rather than 42" and the immediate flanker sidelites will then be wider than the existing immediate flanker sidelites.

TOTAL @ \$13,596.00

Includes material, tax and labor

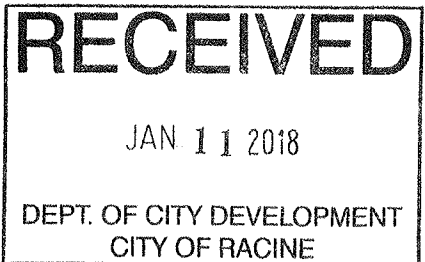

There is no deposit required. Payment would be due at the completion of our work. We accept either cash, MasterCard, VISA or Discover Card.

Thank you for the opportunity to bid on this project. Please advise if work is to proceed.
