

#### City of Racine, Wisconsin AGENDA BRIEFING MEMORANDUM

	pril 24, 2018	e e e theorem a service a
SUBJECT:		tersection of 16 <sup>th</sup> Street and College Avenue
PREPARED BY:	Matt Sadowski, City D	Development, Division of Planning and Redevelopment
SUMMARY:	, _th _	
		constructed. A component of that project will be the
econstruction of the	he intersection of 16 <sup>th</sup> Stre	eet and College Avenue.
PROJECT BACKGRC	OUND & ANALYSIS:	
During the	March 12, 2018 meeting c	of the Landmarks Preservation Commission,
		ffect on a historic district and on historic
		ed 16 <sup>th</sup> Street reconstruction project, as expressed
-		vas prompted by a letter received by City
Developme	ent staff on March 7, 2018,	, and by a Landmarks Commission member.
		to the Southside Historic District and the project's
		Street and College Avenue. The Southside
Historic Dis	strict is listed on the Nation	nal Register of Historic Places.
In regards t	to the effect of the 16 <sup>th</sup> Str	reet project at its intersection with College
Avenue, Co	ommission members felt th	ne concept design did nothing to recognize the
historic dis	trict. The concepts illustra	ation of encroachment concrete pavement
(whether s	tamped to simulate brick o	or left smooth) into the College Avenue brick

Commission members also felt if to be more appropriate, and more durable, that the handicap access ramps tactile feature be composed of textured concrete rather than metallic panel inlays (Fig. 5).

Since that meeting City Development Staff met with representative of the 16<sup>th</sup> Street design team: Julie Olsen and Bob Warren of Graef-USA, John Vogel of Heritage Research, and City Engineer John Rooney. From that meeting City Development staff felt the best alternative, when considering durability, traffic volume, and cost was the "Moderately Appropriate" alternative coupled with textured concrete handicap access ramps.

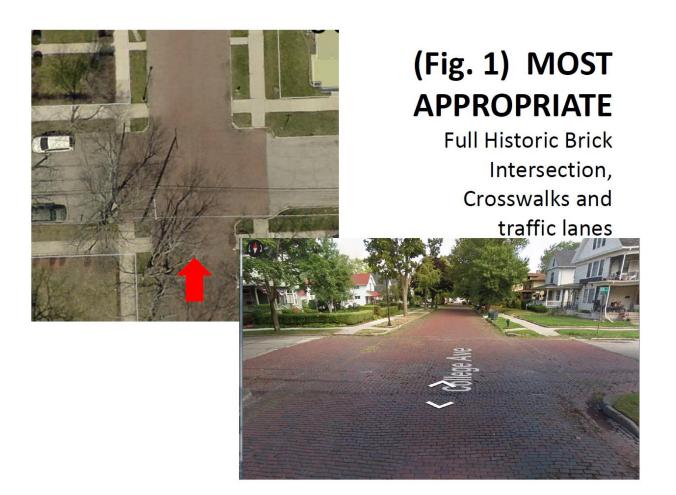

City Engineer John Rooney would like to speak with Commission members regarding the considerations in choosing "Moderately Appropriate" alternative.

#### **RECOMMENDED ACTION:**

Pass a motion supporting the "Moderately Appropriate" alternative (Fig. 2) coupled with textured concrete handicap access ramps and finding that said improvements would have no adverse impact on the Southside Historic District.

#### FISCAL NOTE:

Yet to be determined but the City is costs sharing with the Wisconsin DOT on the 16<sup>th</sup> Street project.
