Re; Section H Crypt 13

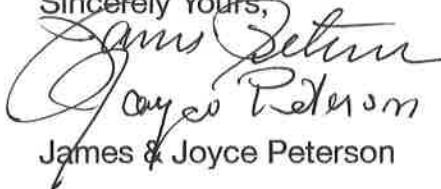

Dear Sir or Madam,

On a recent visit to our family Crypt we noticed that there was one empty Crypt in the same section that our loved ones were entombed We would like to be close to them when the time comes. We understand the policy of one person in a Crypt and ask that we be allowed to have James and Joyce in the same Crypt. We also ask for your consideration to allow our two sons to be placed in the same Crypt All of the remains will be in Urns after cremation.

Our family is in Section H Grave 28 and that Crypt contains one child casket and 3 Urns. This was done at the time for financial reasons as is the request at this time. We appreciate your consideration and would agree to any requirements concerning the inscriptions and any other requirements.

Thank you for your time to consider our request and we look forward to hearing from you.

Sincerely Yours,

James & Joyce Peterson
