The DeKoven Center is requesting a zoning change for our site to a Flex Development Overlay District from the current Office/Institutional designation. We would like to change the current use of 5 apartments to short term rental establishments in our Gatehouse and East Building.

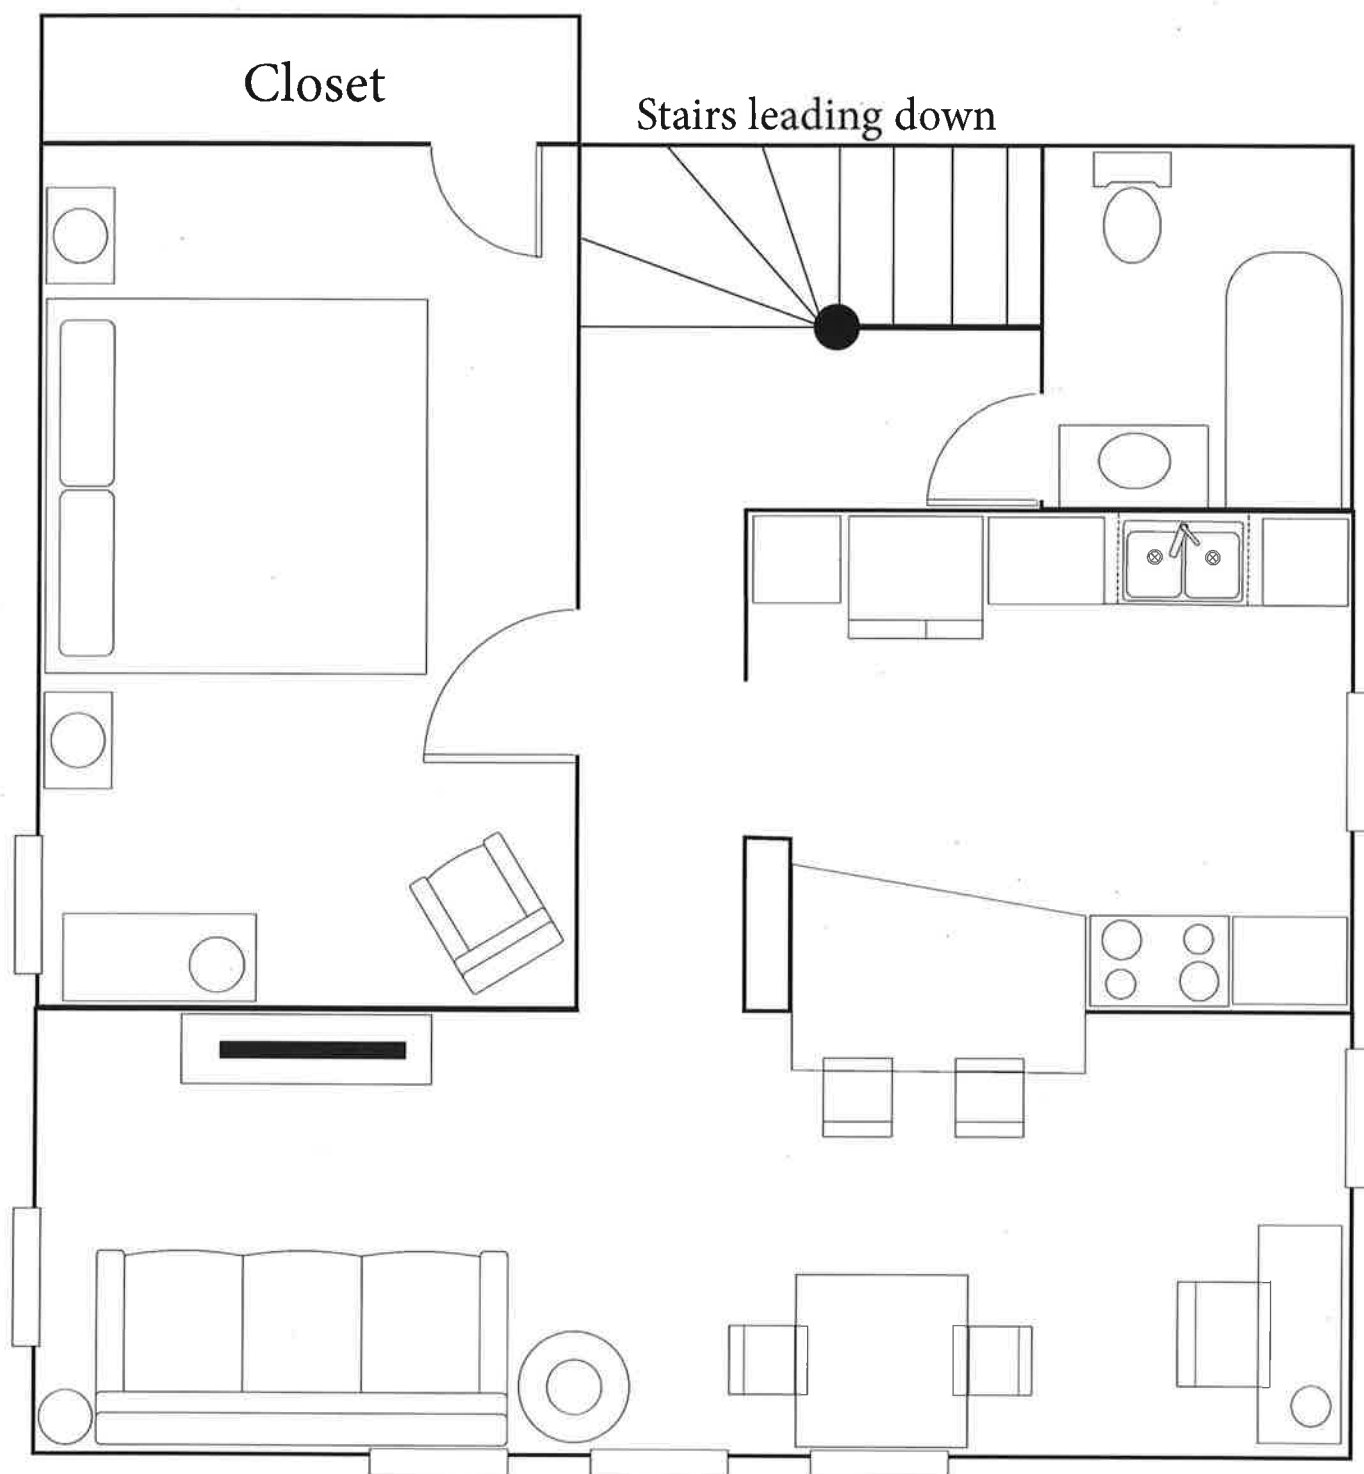

Founded in 1852 as Racine College, the site has been a center for rest, reflection and learning for 167 years. When the Community of St. Mary (an Episcopal order of nuns) purchased the property in 1935 it became one of the first Episcopal retreat and conference centers in the country. We are proud to continue the Community of St. Mary's vision of hospitality for all people.

We are now aware that city guidelines stipulate that these short term rental units be a primary residence. However due to the uniqueness of our mission and campus, we feel that the addition of STREs will greatly add to the viability and long term financial health of DeKoven.

At this time we have two apartments of the six total in our Gatehouse that are ready to be used for this purpose. They are segregated from the other four apartments in the building and have their own entrance, thus do not interfere with the other tenants. We are a self-contained community where these additional visitors will not make an impact of the neighborhood. As we have our own maintenance staff which will handle any issue that may arise and a professional hospitality staff that is well versed in guest relations.

As apartments in the south end of the East building become available, we would like to have the ability to convert these units to STRE's as well. This would be especially beneficial for our wedding reception business as they are located close to the main reception halls. When we have weddings, we are asked routinely if we have overnight accommodation available. When we are asked this question, we have to explain that while we do have overnight accommodation in our retreat center, these are consistently occupied especially during the wedding season. This addition of these units will actually help us increase both the retreat and special event sides of our mission. Adding this service will also help attract more visitors to the Racine community and the south side in particular.
