Section of code variance sought: Sec. 114-310(c)  
Regarding a 60' Setback from the front property line.

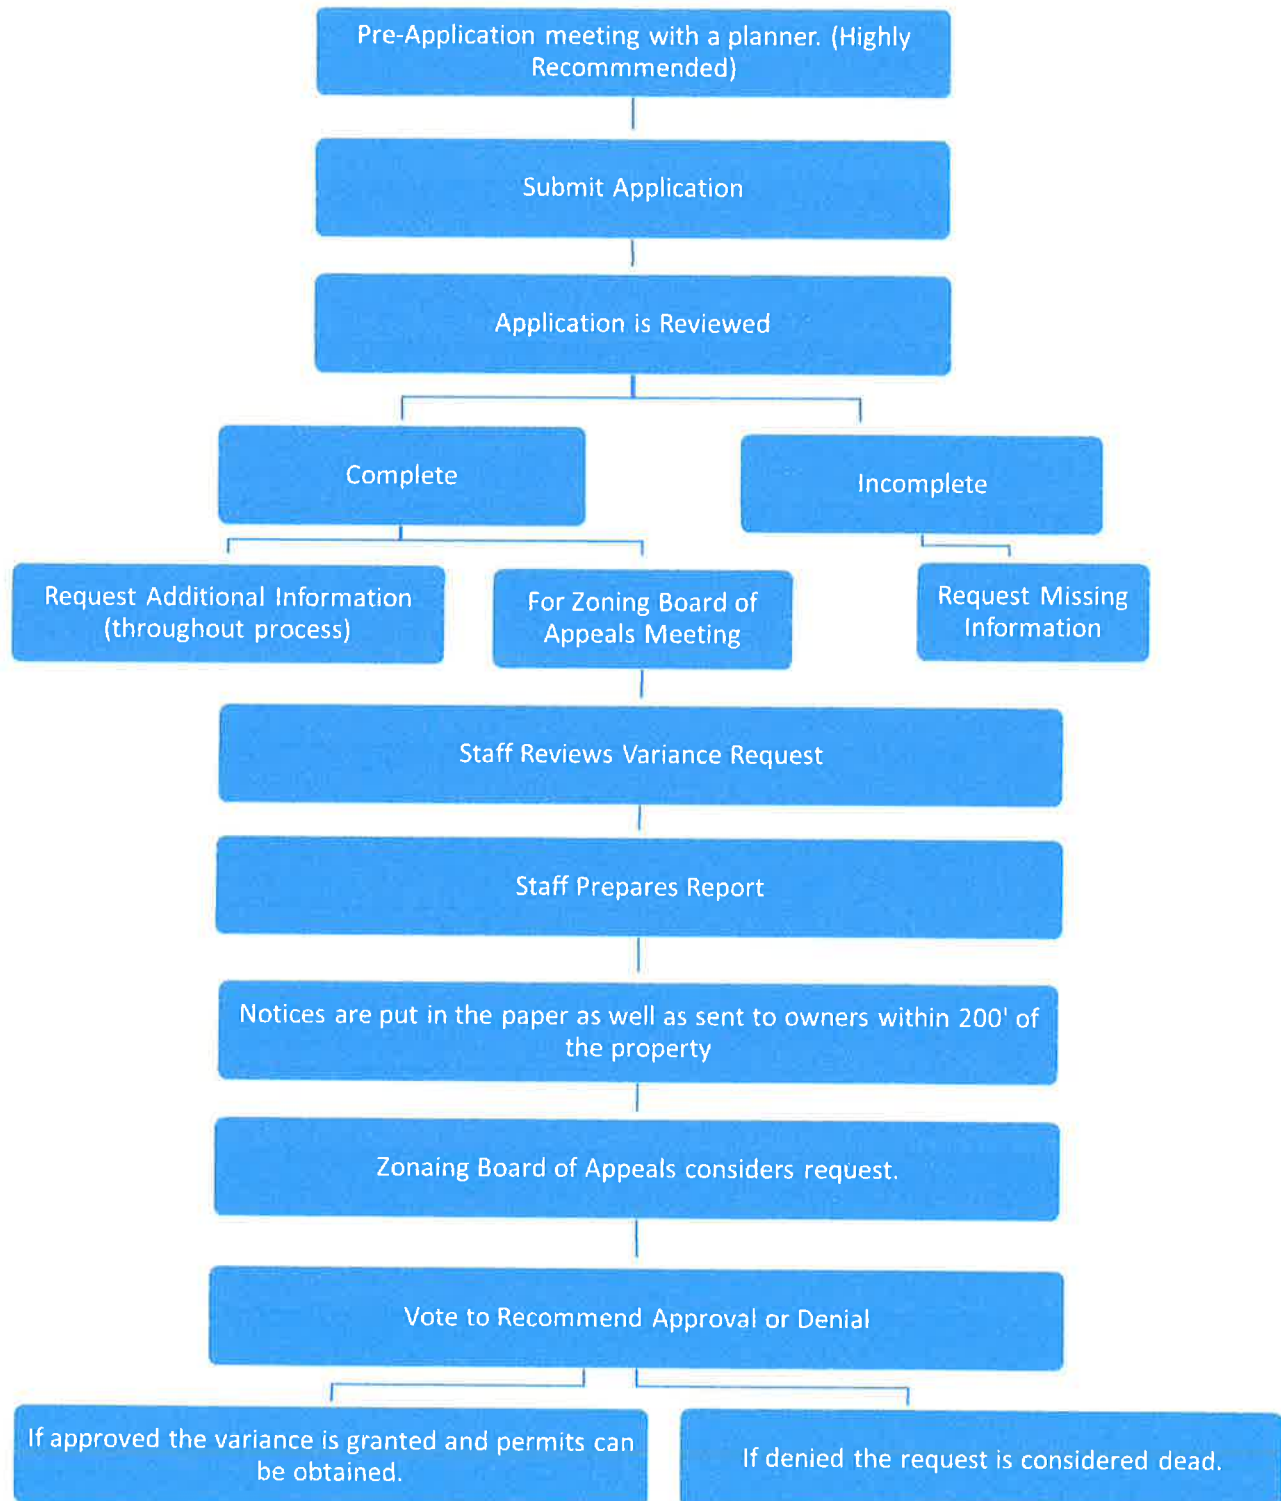

The board of appeals shall not vary the regulations of the zoning code unless it shall make findings based upon the evidence presented to it in each specific case that (use the lines to explain how your request meets these criteria):

- (1) Because of the particular physical surroundings, shape, or topographical conditions of the specific property involved, a particular hardship to the owner would result, as distinguished from a mere inconvenience if the strict letter of the regulations were to be carried out;
- (2) The conditions upon which an application for a variance is based are unique to the property for which the variance is sought, and are not applicable, generally, to other property within the same zoning classification;
- (3) The purpose of the variance is not based exclusively upon a desire to increase financial gain;
- (4) The alleged difficulty or hardship is caused by the provisions of this chapter and has not been created by any persons presently having an interest in the property;
- (5) The granting of the variance will not be detrimental to the public welfare or injurious to other property or improvements in the neighborhood in which the property is located; and
- (6) The proposed variance will not impair an adequate supply of light and air to adjacent property, or substantially increase the congestion of the public streets, or increase the danger of fire, or impair natural drainage or create drainage problems on adjacent properties, or endanger the public safety, or substantially diminish or impair property values within the neighborhood.

A variance is intended to relieve a hardship related to the property which would prevent normal use of the lot. A variance is not intended to maximize use of a property for convenience sake.
