Monica,

I hope this email finds you well! I had the chance to speak with Tom today in regards to the contract and the percentages. We agreed upon the following percent's:

Year 1: 10%

Year 2: 11%

Year 3: 12%

And negotiable for the two options years after that.

Tom also mentioned that this would need to go through some committees and Councils before approval, can you clarify the dates and committees that this would need to proceed through? also, with that being said, when do you think I will have my contract executed?

I am looking for an opening date around May 20th and want to ensure I have enough time to accomplish some goals and start up activities before that!

I thank you in advance for your assistance and appreciate feedback from anyone involved in this!

Cordially,

Caleb Robinson
