Subject: Contact with Sister City Partners

Martinez will try to talk to past French exchange students to see if they would like to host or share their stories. He also has contact with a teacher and the head of Sister Cities in France. They had a survey we answered and they are interested in having exchanges, but find it difficult as our committee does not have a leader. They asked if it would be possible to have French young workers in the tourist business come to the U.S. They were told possibly, but they would need to be 18 years old.
