

CITY OF RACINE DEPARTMENT OF CITY DEVELOPMENT STAFF REPORT

Meeting Date: 3/16/2026

To: Mayor and Planning, Heritage, and Design Commission Members

From: City Development Department, Division of Planning and Redevelopment

Division Manager: Steven Madsen – (262) 636-9151 – steven.madsen@cityofracine.org

Case Manager: Michelle Cook

Location: 207 Gaslight Circle. The property is part of a planned unit development.

Applicant: Roy Peterson

Property Owner: Milevi Holdings LLC

Request: Consideration of a minor amendment to the Gaslight Pointe Mixed Use Planned Development to allow for the extension of the roof structure to support a patio enclosure on the eastside at 207 Gaslight Circle, as allowed by Sec. 114-177 of the Municipal Code.

This property is part of a planned unit development and as such, any minor changes to the development requires the approval of the Planning, Heritage, and Design Commission. The addition of a roof extension and enclosure over the rear patio area represents a minor change to the planned unit development, a conditional use.

BACKGROUND AND SUMMARY: The property has historically operated as a restaurant and will continue as such. The eastside patio area would be served by the main restaurant.

The Zoning Ordinance classifies changes that do not alter the concept or intent of the development as a minor amendment to the planned development conditional use. Minor changes are allowed upon the issuance of a conditional use permit amendment. (Sec. 114-177)

Proposed roof extension plan, submitted by applicant.

REQUIRED FINDINGS OF FACT:

CONDITIONAL USE FINDINGS (Sec. 114-154. – Standards.)

No Conditional Use shall be recommended by the Plan Commission unless it is found that:

- 1) The establishment, maintenance, or operation of the conditional use will not be detrimental to, or endanger, the public health, safety, morals, comfort, or general welfare.**

Staff Comments: The extension of the roof and enclosure to the east side patio is not expected to be detrimental to public safety and general welfare. Enclosing the patio will allow for year-round visitors in the space. This is not expected to cause a detriment to the area as the property is commercially developed and has been a neighborhood fixture for several years.

- 2) The conditional use will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted, nor substantially diminish and impair property values within the neighborhood.**

Staff Comments: This amendment is not anticipated to be injurious to other properties in the general area. Extending the roof to add a patio enclosure will improve the usability of the east side patio, allowing patrons to enjoy the space year-round. The patio is consistent with the existing restaurant use and the ability to enclose the area should not affect the enjoyment or be injurious to the use to other properties in the area.

- 3) The establishment of the conditional use will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district.**

Staff Comments: The patio has been a fixture on the restaurant since it was built in the early 1990's. Extending the roof and adding a patio enclosure is not expected to affect the normal and orderly development and improvement of surrounding property. Being able to enclose the patio will allow for year-round use and protect the structure against the elements. There are no changes proposed to the overall use of the property and its continued use as a restaurant will not hinder or negatively impact the surrounding area.

- 4) Adequate utilities, access roads, drainage and/or necessary facilities have been or are being provided.**

Staff Comments: The application submitted by the applicant does not propose any changes to the utilities or drainage for the site. The use of this site is not expected to impact the provision of utilities for the property or general area.

- 5) Adequate measures have been or will be taken to provide ingress and egress so designated as to minimize traffic congestion in the public streets.**

Staff Comments: The applicant is not contemplating any changes to the access to this site. Parking in this area is plentiful when factoring in the parking garage to the west of the property.

- 6) The proposed conditional use is not contrary to the objectives of the current land use plan for the city.**

Staff Comments: The land use plan for this property calls for development with commercial emphasis and that emphasis will be continued with the extension of the roof and patio enclosure.

- 7) The conditional use shall, in all other respects, conform to the applicable regulations of the district in which it is located, except as such regulations may, in each instance, be modified pursuant to the recommendations of the plan commission.**

Staff Comments: It is expected that this development will operate in accordance with the applicable regulations for this zone district.
