Re: Approval of Transportation Project Plat for Wilson Street Realignment at West Street.

We are submitting the right of way plat for the Wilson Street realignment project – at West Street for approval of the Transportation Project Plat. If approved, the acquisition of property in fee and temporary limited easements can commence.

The acquisition of property will be completed in 2026. The right of way plat is attached for reference. The roadway construction is scheduled to be completed in 2026.

Fiscal Note: Funding for the fees and acquisitions will be provided in the 2026 Capital Improvement Program Budget. Funding for roadway construction will be provided in the CIP in 2027.

If the Committee agrees, the appropriate action would be to approve the Right of Way Plat and authorize the appropriate signatures of the plat.
