Calculation of the Share of Projected Tax Increments Estimated to be Paid by the Owners of Property in the Overlying Taxing Jurisdictions.....	34

SECTION 1:

Executive Summary

DESCRIPTION OF DISTRICT

Tax Incremental District (“TID”) No. 32 (“District”) is a proposed Blighted Area District comprising approximately 19 acres located northwest of downtown in the Lincoln King Neighborhood. The District will be created to pay costs associated with the undertaking of urban renewal projects, to include development of new housing and rehabilitation of existing homes in the area, public infrastructure improvements, and other redevelopment activities. Creation of the District is consistent with, and serves to assist in the implementation of, the objectives set forth in the “Redevelopment Plan for Sites Located Within the Lincoln King Neighborhood” adopted in 2023 (“Project”).

AUTHORITY

The City is creating the District under the provisions of Wis. Stat. § 66.1105.

ESTIMATED TOTAL PROJECT COST EXPENDITURES

The City anticipates making total expenditures of approximately \$10.7 million (“Project Costs”) to undertake the projects listed in this Project Plan (“Plan”). Project Costs include an estimated \$4.69 million for urban renewal projects including residential homeowner repair and renovation loans, property acquisition and other redevelopment activities. Project Costs also include, \$4.23 million for public infrastructure, \$1.21 million in financing costs, and \$600 thousand for costs related to creation and administration of the District.

INCREMENTAL VALUATION

The City projects that new land and improvements value of approximately \$25.5 million will result from the Project. Creation of this additional value will be made possible by the Project Costs made within the District. A table detailing assumptions as to the development timing and associated values is included in the Economic Feasibility Study located within this Plan.

EXPECTED TERMINATION OF DISTRICT

Based on the Economic Feasibility Study located within Section 9 of this Plan, the City anticipates that the District will generate sufficient tax increment to pay all Project Costs within 21 of its allowable 27 years.

SUMMARY OF FINDINGS

As required by Wis. Stat. § 66.1105, and as documented in this Plan and the exhibits contained and referenced herein, the following findings are made:

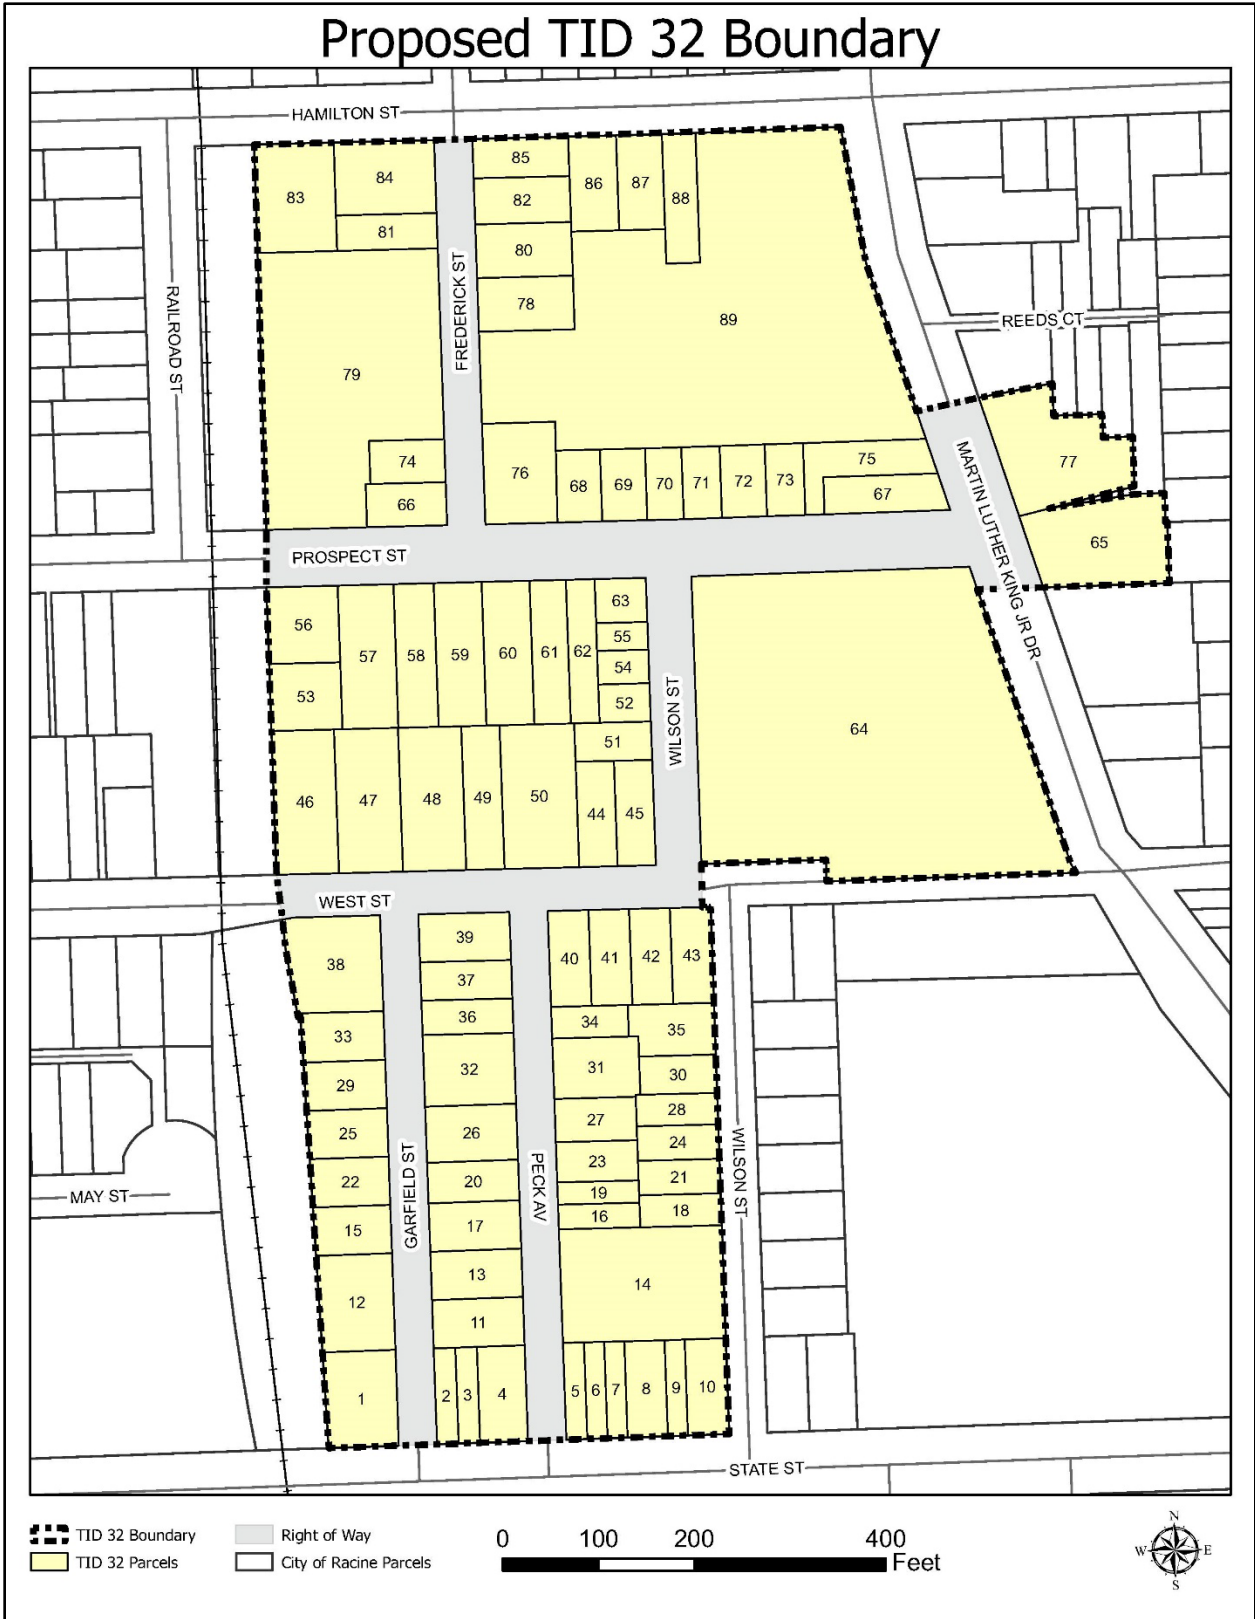

1. That “but for” the creation of this District, the development projected to occur as detailed in this Plan: 1) would not occur; or 2) would not occur in the manner, at the values, or within the timeframe desired by the City. The City finds that but for undertaking of the Projects outlined in this Plan, that there is the potential for the development or spread of slums or blighted, deteriorated or deteriorating areas that will be detrimental to all taxing jurisdictions. The City does not have other funds to make the required investments needed within the District and seeks approval for the use of tax incremental financing to fund these projects which will benefit all taxing jurisdictions.
2. The economic benefits of the District, as measured by increased employment, business and personal income, and property value, are sufficient to compensate for the cost of the improvements. In making this determination, the City has considered the following information:
 - That the projected tax increments to be collected from the Project will be sufficient to pay the related Project Costs given that the City intends to fund Project Costs only with funds on hand, either from tax increments as it is collected, or from advances made to the District from the Intergovernmental Fund.
 - Activities related to implementation of the Project will create new housing, as well as opportunities for business and individuals in the form of employment, private contracts for rehabilitation of property and public contracts for rehabilitation of public infrastructure and facilities.
3. The benefits of the proposal outweigh the anticipated tax increments to be paid by the owners of property in the overlying taxing jurisdictions. As required by Wis. Stat. § 66.1105(4)(i)4., a calculation of the share of projected tax increments estimated to be paid by the owners of property in the overlying taxing jurisdictions has been prepared and can be found in this Plan. However, because the Project would not occur without the use of tax incremental financing, these tax increments would not be paid but for creation of the District. Accordingly, the City finds that the benefits expected to be realized as set forth in this Plan outweigh the value of the tax increments to be invested in the Project.

4. Not less than 50% by area of the real property within the District is a blighted area as defined by Wis. Stat. § 66.1105(2)(ae)1.
5. Based on the foregoing finding, the District is designated as a blighted area district.
6. The Project Costs relate directly to the elimination of blight in the District, consistent with the purpose for which the District is created.
7. Improvements to be made in the District are likely to significantly enhance the value of substantially all of the other real property in the District.
8. The equalized value of taxable property in the District, plus the incremental value of all existing tax incremental districts within the City does not exceed 12% of the total equalized value of taxable property within the City.
9. The City estimates that less than 35% of the territory within the District will be devoted to retail business at the end of the District's maximum expenditure period, pursuant to Wis. Stat. § 66.1105(5)(b).
10. That there are no parcels to be included within the District that were annexed by the City within the preceding three-year period.
11. The Plan for the District is feasible and is in conformity with the Master Plan of the City.

Percentage of TID Area Designated as Blighted (at least 50%)

66%

On May 16, 2023, the Common Council adopted a resolution (File Number: Res. 0503-23) adopting a redevelopment plan for the Lincoln King Neighborhood, inclusive of the territory to be included in the District. Within that resolution, and as further detailed in the redevelopment plan, the Council declared property within the District to be a blighted area, in need of blight elimination and an urban renewal project. For purposes of this Plan, this previous finding of blight is referenced to support the finding that at least 50% of the territory to be included in the District is a blighted area.

The estimated base value of the District is \$3,959,400 using January 1, 2025, assessed values converted to equalized value at that year’s 93.66% ratio. The District’s actual base value will be certified using January 1, 2026, assessed values and the applicable ratio for 2026. The following table provides the January 1, 2025, assessed and equalized values for each parcel to be included within the District.

SECTION 5: Equalized Value Test

The following calculations demonstrate that the City expects to be in compliance with Wis. Stat. § 66.1105(4)(gm)4.c., which requires that the equalized value of the taxable property in the proposed District, plus the value increment of all existing tax incremental districts, does not exceed 12% of the total equalized value of taxable property within the City.

The equalized value of the increment of existing tax incremental districts within the City, plus the estimated base value of the proposed District, totals \$643,850,300. This value is less than the maximum of \$686,505,108 in equalized value that is permitted for the City. This analysis nets out the incremental valuation of Tax Incremental Districts No. 10, 16 and 27 which will be closed by a resolution of the Common Council to be adopted on May 19, 2026.

Calculation of City Equalized Value Limit		
City TID IN Equalized Value (Jan. 1, 2025)	\$	5,720,875,900
TID Valuation Limit @ 12% of Above Value	\$	686,505,108
Calculation of Value Subject to Limit		
Estimated Base Value of Territory to be Included in District	\$	3,959,400
Incremental Value of Existing Districts (Jan. 1, 2025)	\$	742,689,600
Less Incremental Value of Closed Districts		
Tax Incremental District No. 10	\$	(364,300)
Tax Incremental District No. 16	\$	-
Tax Incremental District No. 27	\$	(102,434,400)
Total Value Subject to 12% Valuation Limit	\$	643,850,300
Total Percentage of TID IN Equalized Value		11.25%
Residual Value Capacity of TID IN Equalized Value	\$	42,654,808

SECTION 6: Statement Listing the Kind, Number and Location of All Proposed Public Works or Improvements Within the District

Project Costs are any expenditure made, estimated to be made, or monetary obligations incurred or estimated to be incurred as outlined in this Plan. Project Costs will be diminished by any income, special assessments or other revenues, including user fees or charges, other than tax increments, received or reasonably expected to be received in connection with the implementation of the Plan. If Project Costs incurred benefit territory outside the District, a proportionate share of the cost is not a Project Cost. Costs identified in this Plan are preliminary estimates made prior to design considerations and are subject to change after planning, design and construction is completed.

With all Project Costs, the costs of engineering, design, survey, inspection, materials, construction, restoring property to its original condition, apparatus necessary for public works, legal and other consultant fees, testing, environmental studies, permits, updating ordinances and plans, judgments or claims for damages and other expenses are included as Project Costs. The map found in Section 7 of this Plan along with the Detailed List of Project Costs found in Section 8 provide additional information as to the kind, number and location of potential Project Costs.

The City may elect to have its Community Development Authority (“CDA”) administer programs identified in this Section.

Residential TID Homeowner Repair and Renovation Loans

The following description of the City’s planned Residential TID Homeowner Repair Loans program is proposed and may need to be modified based on available funding and to meet the objectives of the City for rehabilitation and conservation of property within the District. The CDA may amend or otherwise modify this program without seeking amendment to this Plan. Depending on specific program structure, loans made could constitute cash grants made to property owners, lessees, or developers of land as permitted by Wis. Stat. 66.1105(2)(f)2.d.

Funds drawn from the District will be used to support loans, grants, and other financial mechanisms that will extend the economic life and/or increase the assessed valuation of homeowner occupied housing units. The increment received from the District will also be used to provide down payment and closing cost assistance to encourage homeownership.

Property Acquisition

Abandoned properties and for sale properties often become eyesores, may attract crime, lower surrounding property values, allow for unsafe living conditions, and create public safety hazards. By purchasing and renovating blighted or strategic properties, the CDA can:

- Improve public safety by eliminating blight and reducing opportunities for illegal activity.
- Preserve housing stock and make it available for homeownership.
- Abate unsafe living conditions.
- Increase property values and tax revenue in the long term.
- Signal investment and confidence in neighborhoods, encouraging private sector investment and resident engagement.

In the case of properties previously acquired by the CDA or City, land write-down will be an eligible cost, representing the difference between the CDA or City's cost to acquire and hold the property, and the sales price of the land.

Redevelopment Activities

The City or CDA may incur costs to implement development agreements, to improve or implement projects in historic districts, or within redevelopment areas designated by the CDA. These costs may include payment of development incentives, public infrastructure and other costs related to redevelopment.

Redevelopment activities may include, but are not limited to:

- Property acquisition.
- Remediation of hazardous materials and substances from property.
- Renovation/restoration of existing buildings and structures.
- Demolition of dilapidated, unsafe, blighted, antiquated, or non-conforming buildings and structures.
- Construction of new buildings or structures.

Infrastructure and Public Facilities Improvements

infrastructure upgrades and improvements may include, but are not limited to:

- Resurfacing of existing roadways.
- Installation of new curb and gutter systems.
- Curb and gutter repair.

- Installation of ADA-compliant crosswalk ramps.
- Improvement or creation of public spaces.
- Installation, replacement, relocation or repair of watermains, stormwater or sanitary sewers, and other public infrastructure.
- Streetscaping.

Miscellaneous

Projects Outside the District

Pursuant to Wis. Stat. § 66.1105(2)(f)1.n, the City or CDA may undertake projects within territory located within one-half mile of the boundary of the District provided that the project area is also located within the City’s corporate boundaries; and 2) the projects are approved by the Joint Review Board. Joint Review Board approval of this Plan Amendment will constitute this approval. The cost of projects completed outside the District are eligible Project Costs and may include any Project Cost identified within this Section of the Plan that would otherwise be eligible if undertaken within the District.

Professional Service and Organizational Costs

The costs of professional services rendered, and other costs incurred, in relation to the creation, administration and termination of the District, and the undertaking of the projects contained within this Plan, are eligible Project Costs. Professional services include but are not limited to architectural; environmental; planning; engineering; legal; audit; financial; and the costs of informing the public with respect to the creation of the District and the implementation of the Plan.

Administrative Costs

The City or CDA may charge the District as eligible Project Costs reasonable allocations of administrative costs, including, but not limited to, employee salaries. Costs allocated will bear a direct connection to the time spent by City or CDA employees relating to the implementation of the Plan.

Financing Costs

Interest expense, debt issuance expenses, redemption premiums, and any other fees and costs incurred in conjunction with obtaining financing for projects undertaken under this Plan are eligible Project Costs.

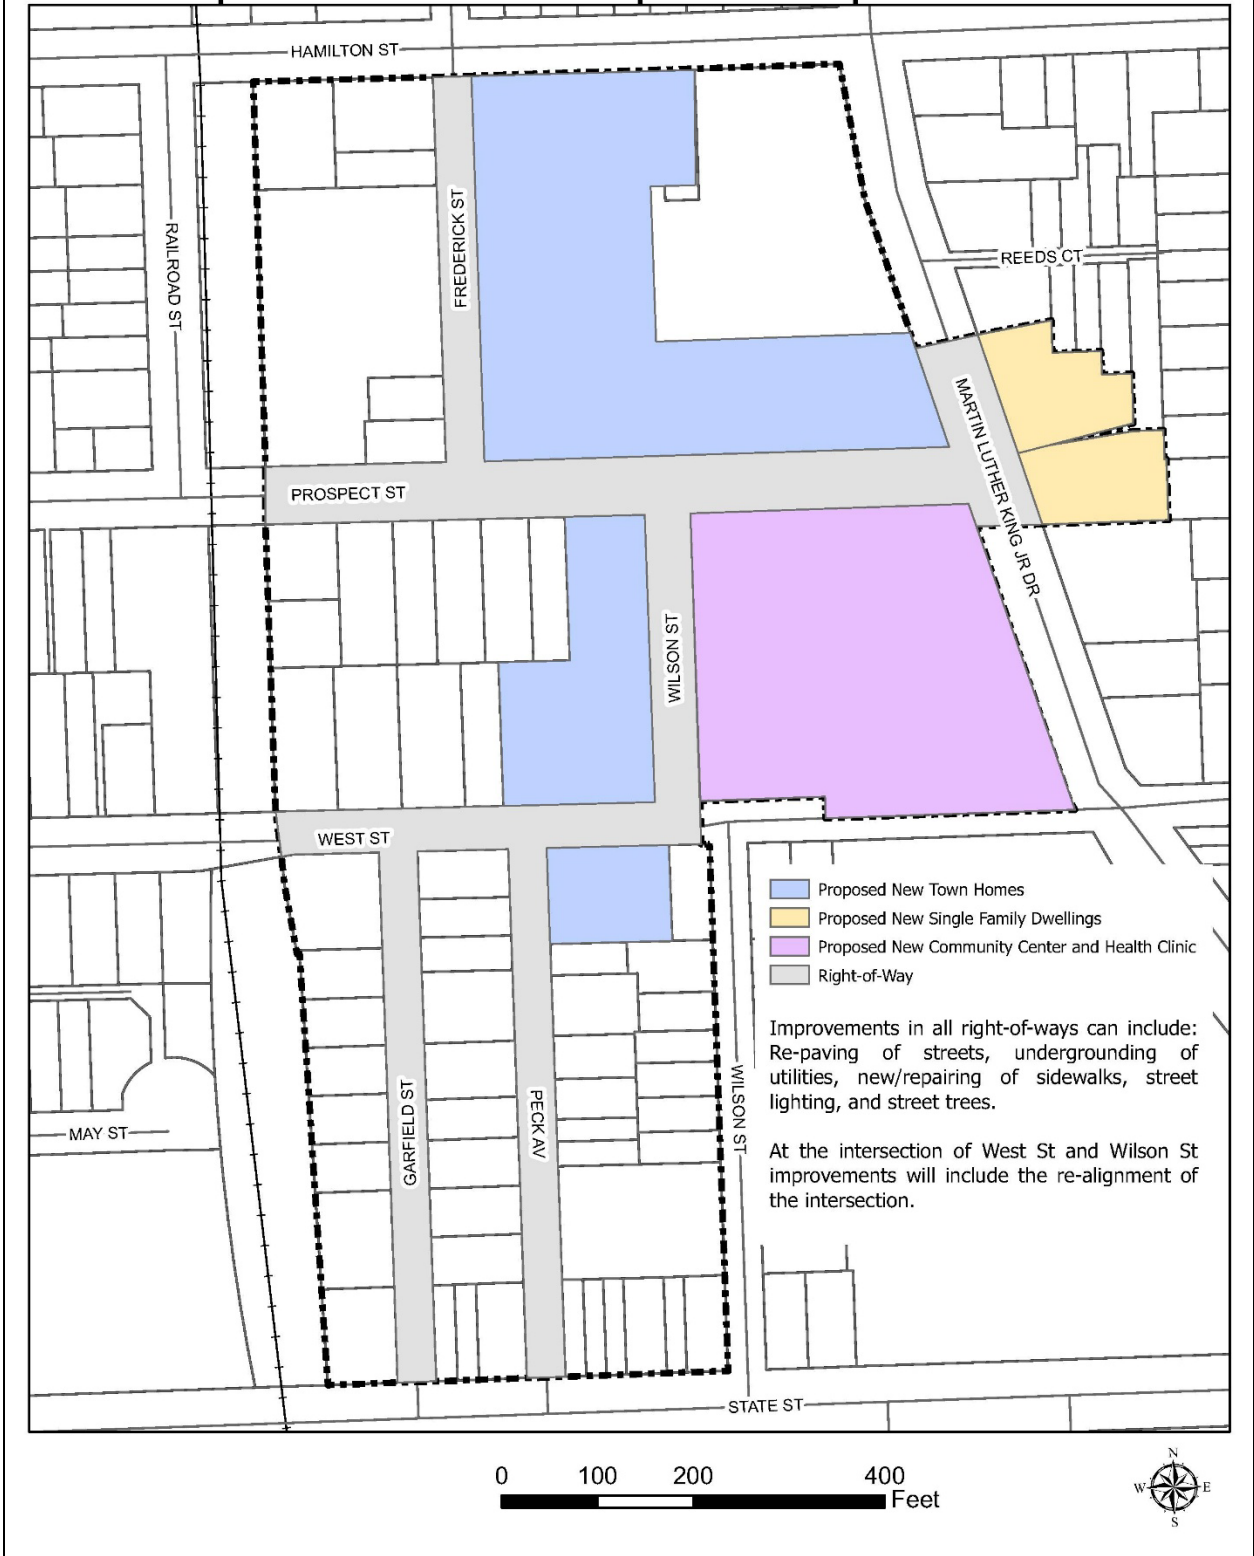

Redevelopment objectives and circumstances may evolve through the District’s implementation period. The City or CDA may incur other costs not specifically enumerated or included within this Section, or Section 7 of the Plan. To the extent those costs are otherwise eligible under Wis. Stat. §

66.1105(2)(f) and are undertaken to meet the objectives of the District and this Plan, those costs are permitted and will not require further amendment of this Plan.

SECTION 7: **Map Showing Proposed Improvements and Uses**

Maps Begin on Following Page.

Proposed TID 32 Proposed Improvements

SECTION 8: Detailed List of Estimated Project Costs

The following list identifies the Project Costs that the City currently expects to incur in implementing the District’s Plan. All projects identified and related costs reflect the best estimates available as of the date of preparation of this Plan. All costs are preliminary estimates and may increase or decrease. Certain Project Costs listed may become unnecessary, and other Project Costs not currently identified may need to be made. (Section 6 details the general categories of eligible Project Costs). Changes in Project Cost totals or the types of Project Costs to be incurred will not require that this Plan be amended. This Plan is not meant to be a budget nor an appropriation of funds for specific Project Costs, but a framework within which to manage Project Costs.

Project Costs	Totals
Urban Renewal Projects ¹ , Including:	4,686,000
Residential TID Homeowner Repair and Renovation Loans ²	
Property Acquisition	
Redevelopment Activities	
Infrastructure and Public Facilities Improvements	4,225,000
Interest on IG Fund Advance	1,210,697
Prof. Services, Org. & Admin. Costs	600,000
Totals	<u>10,721,697</u>
<i>Plus Advance Principal to Total to Cash Flow</i>	15,021,697
Notes:	
¹ See Section 5 for a detailed description of costs. Costs may be incurred within the District, or in the areas located within 1/2 mile of the District's boundaries.	
² Expenditures in these categories may be in the form of a development incentive as permitted under Wis. Stat. § 66.1105(2)(f)2.d.	

SECTION 9: Economic Feasibility Study, Description of the Methods of Financing Estimated Project Costs and the Time When Related Costs or Monetary Obligations are to be Incurred

This Section includes a forecast of the valuation increases expected within the District, the associated tax increment collections, a summary of how Project Costs would be financed, and a projected cash flow demonstrating that the District is economically feasible.

Key Assumptions

The Project Costs the City plans to make are expected to create \$25.5 million in incremental value by January 1, 2032. Estimated valuations and timing for construction of the Project are included in **Table 1**. In addition to this new value, the City conservatively projects that economic appreciation of existing properties in the District will generate approximately \$6.7 million in additional incremental value through the remaining life of the District.

Assuming a declining equalized tax rate through 2034, the District would generate a total of \$14.57 million in incremental tax revenue over its twenty-seven-year term as shown in **Table 2**.

Table 2 – Tax Increment Projection Worksheet

Financing and Implementation

The City anticipates making total expenditures of approximately \$10.7 million to undertake the projects listed in this Plan. The City does not expect to finance Project Costs, other than with internal advances from the Intergovernmental Fund. The City expects to make an advance for initial public infrastructure costs, and to pace other expenditures to occur with the availability of cash. Any advances received by the District will be repaid with interest.

Since the City expects to fund Project Costs on a cash basis (aside from the initial advance), it would expect to close the District not later than the end of its expenditure period in 2048. Earlier closure could result dependent on the level of incremental value increase resulting from the Project Costs to be made. **Table 3** identifies the anticipated timing and amounts of revenue to be received, expenditures to be made, and the resultant projected District cash flows..

Year	Projected Revenues		Projected Expenditures					Balances			Year	
	Tax Increments	Advance from IG Fund	Total Revenues	Urban Renewal Projects ^{1&2}	Infrastructure	Repay IG Fund Advance	Prof. Services, Org. & Admin. Costs	Total Expenditures	Annual	Cumulative		Liabilities (Advance) Outstanding

Notes:

¹See Section 6 for a detailed description of costs. Costs may be incurred within the District, or in the areas located within 1/2 mile of the District's boundaries.

²Expenditures in these categories may be in the form of a development incentive as permitted under Wis. Stat. § 66.1105(2)(f)2.d.

PROJECTED CLOSURE YEAR

LEGEND:

----- **END OF EXP. PERIOD**

Table 3 - Cash Flow

SECTION 10: Annexed Property

A tax incremental district cannot include annexed territory unless at least three years have elapsed since the annexation, or certain other requirements are met. None of the property within the proposed District boundary was annexed during the past three years.

SECTION 11: Estimate of Property to Be Devoted to Retail Business

Pursuant to Wis. Stat. § 66.1105(5)(b), the City estimates that less than 35% of the territory within the District will be devoted to retail business at the end of the District's maximum expenditure period.

SECTION 12: Proposed Changes of Zoning Ordinances, Master Plan, Map, Building Codes and City Ordinances

Zoning Ordinances

The proposed Plan is in general conformance with the City's current zoning ordinances. Individual properties may require rezoning at the time of development.

Master (Comprehensive) Plan and Map

The proposed Plan is in general conformance with the City's Comprehensive Plan.

Building Codes and Ordinances

Development within the District will be required to conform to State Building Codes and will be subject to the City's permitting and inspection procedures. The proposed Plan conforms to all relevant State and local ordinances, plans, and codes. No changes to the existing regulations are proposed or needed.

SECTION 13: Statement of the Proposed Method for the Relocation of any Persons to be Displaced

Should implementation of this Plan require relocation of individuals or business operations, relocations will be handled in compliance with Wis. Stat. Chapter 32 and Wis. Admin. Code ADM 92.

SECTION 14: How Creation of the Tax Incremental District Promotes the Orderly Development of the City

This Plan promotes the orderly development of the City by providing funds to undertake an urban renewal project as defined in Wis. Stat. § 66.1337(2m)(a) to eliminate and prevent the development or spread of slums or blighted, deteriorated or deteriorating areas, and which will consist of: carrying out plans for a program of voluntary repair and rehabilitation of buildings or other improvements; and installation, construction or reconstruction of streets, utilities, parks, playgrounds, and other improvements necessary for carrying out the objectives of the urban renewal project. The City has determined that undertaking such urban renewal programs will preserve and grow the City's tax base, prevent further deterioration of property and infrastructure, and the potential development of blight, all facilitating the orderly development of the City.

SECTION 15:

List of Estimated Non-Project Costs

Non-project costs are public works projects which only partly benefit the District. Costs incurred that do not benefit the District may not be paid with tax increments. Examples of non-project costs are:

- A public improvement made within the District that also benefits property outside the District. That portion of the total Project Costs allocable to properties outside of the District would be a non-project cost.
- A public improvement made outside the District that only partially benefits property within the District. That portion of the total Project Costs allocable to properties outside of the District would be a non-project cost.
- Projects undertaken within the District as part of the implementation of this Project Plan, the costs of which are paid fully or in part by impact fees, grants, special assessments, or revenues other than tax increments.

No improvements to be made within the District will benefit property outside the District. Furthermore, there will be no improvements made outside the District that will only partially benefit the District.

SECTION 16: Legal Opinion Advising Whether the Plan is Complete and Complies with Wis. Stat. § 66.1105(4)(f)

RE: City of Racine, Wisconsin, Tax Incremental District No. 32

Mayor Mason:

As City Attorney for the City of Racine, I have reviewed the Project Plan for City of Racine, Wisconsin, Tax Incremental District No. 32, dated May 4, 2026, and, in my opinion, it is complete and complies with Wisconsin Statutes section 66.1105(4)(f). This opinion is provided pursuant to Wisconsin Statutes section 66.1105(4)(f).

Sincerely,

Scott R. Letteney
City Attorney
